Tech Data Sheet

L Series

Expansion Joint Cover System

L20-81-11 Illustrated

Description:

The L Series is a Center plate system designed for roof expansion joint applications. It has a centering device to provide mechanical attachment of the metal center plate to metal frames that allows plus and minus 50-100% thermal and seismic movement in nominal expansion joint gaps of 1" to 18". It has an internal moisture barrier that can be directed to drains or exterior wall covers to evacuate water.

Options:

Roof to Roof, Roof to wall, custom painted, anodized.

Typical applications:

Low and high rise cant conditions, surface mount conditions, suitable for snow loads.
